

# Specifically designed to help your skin recover, quickly & effectively, from the challenging effects of swimming environments.

Chlorine and Open Water can dry your skin.

Use Recovery Phase Swim to help protect your skin by:

- Providing a soothing barrier against chlorine with our added active ingredient Zinc Oxide.
- Waterproofing your skin with added Panthenol Pro Vitamin B5.
- Correcting your skin's natural pH balance and repairing your skin's moisture levels.

It cools, soothes and protects your skin. You have worked hard, so has your skin.

For best results use before and after swimming.

**Purchase your Recovery Phase Swim Rehydration Cream now from [www.brodieskincare.co.uk](http://www.brodieskincare.co.uk). £16.95 50g Pump**
